¹ Charges for downloading and sending data are billed together (in a single session). The charges for connections with APN: wap.plusgsm.pl are billed at 10 KB increments. The charges for connections with APN: www.plusgsm.pl and the Internet are billed at 100KB increments

² APN (Access Point Name) denotes the name of the access point to an IT network, e.g. access to the Internet or WAP service.

³ included in the fee for providing access to "SIM DATA" promotion

⁴ The fee collected as part of Text Messages Premium functionality relates only to the services available for the indicated numbering range. Launch of access to individual numbers will be published in Polkomtel information leaflets, on www.plusgsm.pl or in the information materials published by providers of Text Messages Premium services.

⁵ The fee for sending an MMS to one addressee is billed for each 100KB increment started.

⁶ The fee collected for MMS Premium services relates solely to the services available in the indicated numbering range. The above quoted rates are valid round-the-clock. The fee for sending or receiving an MMS is independent of the tariff used.

- Promotional SIMDATA Tariff does not include any monthly access fee.
- Account reloading (top-up) can be performed with the use of Simplus scratch cards or in a manner defined by the operator.
- The account reloading procedure involves sending the code from a scratch card in a manner described by the operator in information materials. It is recommended that the account is reloaded before it is fully depleted or before its validity expires.
- The information on the current account limit can be obtained with the use of "Available Limit via Short Code" service.
- The starting limit is valid for 30 days from activation in the network.
- Account reloading starts the next period of account validity, with the duration of such a period depending on the type of scratch card used.
- Account validity periods do not add up.
- In the case of multiple account reloads, the validity period that is most favorable for the user is chosen.
- Once the account validity expires for outbound calls and services or from the moment when the whole account limit was used, a user can still receive incoming calls and reload the account during the following thirty days.
- Each call to SIMPLUS Customer Service is subject to a one-off flat fee irrespective of its duration.
- Automatic information for Simplus users (IVR) is available round-the-clock, from 7 a.m. to 7 p.m.
- The fee for calls to the Internet also concerns the calls to the following numbers: 601 100 321, +48 601 100 321, 601 100 123 and +48 601 100 123.
- The fee for calls to WAP also concerns calls to the following numbers: 601 100 234 and +48 601 100 234.
- Mobile-originated text message contains not more than 160 alphanumeric characters coded in 7 bits or not more than 140 bytes according to ETSI GSM norms. When sending a message containing more than 160 alphanumeric characters or more than 140 bytes in binary form, the text or the data will be divided to a respective number of text messages, with each being charged separately in accordance with SIMDATA Promotional Regulations. When messages with Polish characters are sent (e.g. ą, ę, ł) from a mobile phone supporting UNICODE, then the length of a message is maximum 70 alphanumeric characters.
- All prices are in Polish zloty.

Polkomtel S.A. can provide services on terms and conditions other than defined in the present SIMDATA Promotional Regulations.

VAT for telecommunication services is 22%.
